Mission Statement

The Indian Red Cross Society is a national federation of more than 700 Red Cross branches.

Neither the headquarters nor the branches are by themselves the Society. It is their collectivity interwoven together that makes up the Indian Red Cross Society.

They Inspire, encourage and initiate at all times all forms of humanitarian activities so that human suffering can be minimized, alleviated and even prevented... and thus contribute to creating a more congenial climate for peace.

Indian Red Cross Society offers a one-year part-time Post Graduate Diploma Course on Disaster Management and Rehabilitation that is affiliated with Guru Gobind Singh Indraprastha University, New Delhi since 2006. 10 batches have completed the course, drawing participants from the various ministries, govt. departments, national & international NGOs, WHO, IFRC, public health specialists, engineers, doctors, lawyers etc. The classes of 11th batch are underway.

The Third UN World Conference on Disaster Risk Reduction (WCDRR), held in Sendai, Japan on 14-18 March 2015, concluded with the endorsement of the ‘Sendai Framework for Disaster Risk Reduction (SFDRR) 2015-2030’ by India. Under this framework, India is committed to achieve 4 priorities and 7 targets. This commitment in the form of 4 priorities and 7 targets are nothing but an attempt by our country to reduce loss of life and property in the event of a natural disaster and increase our Disaster Risk Reduction capabilities. Further the first ever National Disaster Management Plan (NDMP) of India was released in June last year by Hon’ble Prime Minister of India. The plan is in alignment with the goals and priorities set out in the Sendai Framework for Disaster Risk Reduction.

The present training course aims to build capacity of students who are at the forefront of Disaster Management, both in the government and private sector. The syllabus of the course is revised to incorporate SFDRR & NDMP. The trained Disaster Managers play an important role in preparing for and responding to disasters in a highly professional and efficient manner.

Besides this Indian Red Cross Society has Online Learning Platform which is a learning environment that provides lifelong learning for the staff and volunteers as well as lay people. It offers academic online courses that are accredited with leading universities and a fast-growing number of self-directed online courses that are open to all and free of cost. The learning platform is supported by the International Federation of Red Cross and Red Crescent Societies (IFRC) and course link is available at our website indianredcross.org

I am sure that as always, the 12th Course will also attract a good response and the trained personnel will prove to be useful in disaster situations.

The Fundamental Principles of the Red Cross Movement

Humanity

The International Red Cross and Red Crescent Movement, born of a desire to bring assistance without discrimination to the wounded on the battlefield, endeavours, in its international and national capacity, to prevent and alleviate human suffering wherever it may be found. Its purpose is to protect life and health and to ensure respect for the human being. It promotes mutual understanding, friendship, cooperation and lasting peace amongst all peoples.

Impartiality

It makes no discrimination as to nationality, race, religious beliefs, class or political opinions. It endeavours to relieve the suffering of individuals, being guided solely by their needs, and to give priority to the most urgent cases of distress.

Neutrality

In order to continue to enjoy the confidence of all, the Movement may not take sides in hostilities or engage at any time in controversies of a political, racial, religious or ideological nature.

Independence

The Movement is independent. The National Societies, while auxiliaries in the humanitarian services of their governments and subject to the laws of their respective countries, must always maintain their autonomy so that they may be able at all times to act in accordance with the principles of the Movement.

Voluntary Service

It is a voluntary relief movement not prompted in any manner by desire for gain.

Unity

There can be only one Red Cross or one Red Crescent Society in any one country. It must be open to all. It must carry on its humanitarian work throughout its territory.

Universality

The International Red Cross and Red Crescent Movement, in which all Societies have equal status and share equal responsibilities and duties in helping each other, is worldwide.

Indian Red Cross Society (IRCS) is a statutory organization constituted under Act XV of Parliament in the year 1920. The act was last amended in 1992 and rules were framed in 1994.

Hon’ble President of India is the President and Hon’ble Union Health Minister is the Chairman of the Society. The Vice Chairman is elected by the members of the Managing Body.

The National Managing Body consists of 19 members. The Chairman and 6 members are nominated by the President. Remaining 12 are elected by the state and union territory branches through an electoral college. The Managing Body is responsible for governance and supervision of the functions of the society through a number of committees. Secretary General, Dr. S.P. Agarwal, is the Chief Executive of the Society.

Apart from promoting humanitarian principles and values, the Indian Red Cross, among others, is actively involved in disaster response, relief preparedness and health care in the community. The IRCS has 35 State/Union Territories Branches that are further divided into more than 700 districts and sub district branches.

The IRCS, being a member, has close links with the International Federation of Red Cross and Red Crescent Societies (IFRC) and the International Committee of the Red Cross (ICRC). These are non political humanitarian organizations having wide exposure and experience in the related fields. The IRCS has also established good working relationships with other National Red Cross and Red Crescent Societies. The IRCS benefits immensely from these organizations technically and financially in times of need and for capacity building.

CENTRAL TRAINING INSTITUTE (CTI)

The IRCS has established a state of art Central Training Institute (CTI) at Bahadurgarh on the fringes of Delhi. It is spread over an area of 5 acres and has all the modern facilities of a training institute. It contains equipments that are needed by a Disaster Response Unit- (DRU) for providing hands on training, water pools for training rescue operations and state of art training facilities for inhouse training and outdoor drills.

DISASTER MANAGEMENT CENTRE (DMC)

The IRCS has developed a Disaster Management Centre at the National Headquarters which is retrofitted. This serves as a base for all disaster related activities. The centre is designed to strive for improved overall disaster management planning and response, as also for long term risk reduction activities. It has facilities to link all state branches and warehouses to provide efficient response and better coordination and monitoring. It serves as an information and knowledge management centre, monitor response operation and a need based 24 hour control room.

POST GRADUATE DIPLOMA COURSE IN DISASTER PREPAREDNESS AND REHABILITATION (PG DP & R)

Besides imparting training in First Aid through St. John Ambulance and preparing National Disaster Relief Teams, the IRCS, keeping in view the acute shortage of trained manpower in disaster preparedness activities, is working towards having a cadre of qualified trainers through Post Graduate Diploma Course at its National Headquarters with its affiliation to the GGSIP University, Delhi.
